Humanitarian Aid versus Development

Humanitarian Aid in Emergencies

- Based on International Law
- Requires strict neutrality on the part of aid providers
- Temporary with very clear objectives
- Needs are mostly determined based fixed standards (objective)

Development Aid

- Projects are pursued with host-government cooperation and approval
- Success is evaluated over the long term
- Sustainability must be achieved before the end of the project
- Needs are established in culturally relative terms (subjective)

Definitions:

- IDP - Internally Displaced People
- NGO - Non Governmental Org.
- DRC - Democratic Republic of the Congo
- MSF - Doctors Without Borders
- WHH - German Agro Action
- USAID - United States Agency for International Development
