

HMK # 4

ABE 290

General Req'd HMK Questions

ABE 290 Students:

We have had several questions about the Req'd HMK assignments for ABE 290 class. The written assignments are due one week after the presentation. Beware for these assignments there may be no posting on Blackboard (accept in the Course Syllabus) in this case you should write what you have heard, learned, and how this will impact your career. For example you could ask the questions:

1. Name of the Speaker
2. What is the background of the speaker?
3. What were three specific "take-home" messages of the lecture?
4. How will these impact your plans while at Purdue University and in planning for your next career steps?

Please write no more than one page, single spaced.

50 to 100 words (three to four well-written sentences) should be provided in response for each of the three questions.

I hope this helps.
