

LAND O' LAKES, INC.

By 2050, the world population is expected to grow from 7 billion to nearly 10 billion people. In order to feed the world and meet this demand, global food production must grow by 70%. This is no easy task. To solve global food security, we need people from all different walks of life. Regardless of your college, major, or career experience, if you're a sophomore, now's your chance to make a difference

You're Invited!

Meet with Emerging Leaders about their local, national, and international experience with the Land O'Lakes, Inc. Global Food Challenge.

Date: Tuesday, Oct. 4

Time: 4:00 – 5:30 p.m.

Location: Beck's Learning Center – 7th Floor Krannert

(Purdue Campus, located across from the Purdue Memorial Union)

Hosted by: Agribusiness Club

Click [here](#) to RSVP for the information session (space is limited)!

Students selected as Emerging Leaders will gain a once-in-a-lifetime experience in the food and agricultural industry outside the classroom: this includes trips to Washington, D.C and Africa as part of an 11-week paid summer internship with Land O'Lakes, Inc. Check out last year's experience [here](#) ! Online applications are now being accepted at FoodChallenge.LandOLakesInc.com for the Class of 2019 at all colleges of Purdue University until **October 31st, 2016 at 12:00 p.m. noon (CST).**

Questions? Contact Brandi DeVries at foodchallenge@landolakes.com.
