(10/04/2016) Agriculture Fall 2016 Fair / Employers

Over a century has passed in northeast Indiana—a farming community in its humble beginnings, tight knit, embracing hard work, honesty and family.

Today, those very values are alive and thriving, sustaining the core values of Ag Plus. Formed by a handful of modest farmers, Ag Plus has grown into a 1,400-member company servicing the needs of communities throughout eleven counties.

When you partner with an AgVenture Regional Seed Company, you're never going to grow it alone. Our focus is on your farm and getting the most production and profit out of every acre you plant. We don't believe in selling you a bag of corn or soybean seed and then waiting until next year to check in again. We stick around. We provide you with the tools you need to get the most out of that crop and we're relentlessly dedicated to making sure your farm is achieving maximum profit.

Crop Production Services (CPS) was established in 1983. We've welcomed more operations into our family and expanded our product and service offerings. Our reach has become global as we are now part of a network of retailers that spans three continents. Despite all those changes, we have never lost sight of the American farmers and the work they do. Decade after decade, we're here to provide the best technologies, tools and products so you can focus on what you do best - grow.

Twenty years from now, the earth's population will need 55% more food than it can produce now. Today, Monsanto is working with farmers around the world to do something about it. Our investments in research have led to real advancements in agricultural technology that will lead to healthier, hardier crops for farmers around the world. At the same time we are reducing agriculture's impact on the planet. At Monsanto, be part of a sustainable company focused on reducing our environmental impact.
